O R D E R

On June 15, 1992, the Commission issued an Order granting Kentucky RSA #3 Cellular General Partnership ("Kentucky RSA #3 Cellular") a Certificate of Public Convenience and Necessity to construct a guyed antenna tower 326 feet or less in Central City, Kentucky.

Kentucky RSA #3 Cellular's initial application requested a tower height of 400 feet. The public notices mailed to property owners/residents living within 500 feet of the tower listed the tower's height at 400 feet. While this application was pending before the Commission, the Federal Aviation Administration ("FAA") reduced the approvable tower height to 326 feet.

On June 11, 1992, the FAA authorized Kentucky RSA #3 Cellular to construct a 400-foot tower. Through administrative oversight, the Commission was not notified of this change, and Kentucky RSA #3 Cellular proceeded to construct the tower at a height as approved by the FAA - 400 feet. Kentucky RSA #3 Cellular, by motion,

notified the Commission of the change and requested that the June 15, 1992 order of the Commission be amended on a nunc pro tunc basis.

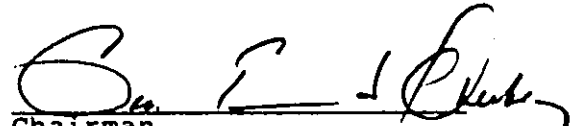

Since Kentucky RSA #3 Cellular has FAA approval for a 400-foot tower and all property owners/residents were notified of a 400-foot tower to be located with 500 feet of their property or residence, IT IS THEREFORE ORDERED, to be entered nunc pro tunc, that:

1. The tower height in Kentucky RSA #3 Cellular's June 15, 1992 Order be amended from 326 feet to 400 feet.

2. Kentucky RSA #3 Cellular shall file a copy of the final decision regarding its pending Kentucky Airport Zoning Commission application for this amended cell site construction, within 10 days of receiving this decision.

Done at Frankfort, Kentucky, this 2nd day of December, 1992.
